

Bill Hill, "Designed To Earn the Energy Star Logo"

Bill Hill's seminar teaches building designers and architects how to comply with the Energy Star program, qualifying them to place the Energy Star logo on their plans and prints. This program, "Designed to Earn the Energy Star Logo," will provide attendees with the basic building science knowledge and the tools needed to comply with the Energy Star requirements and how to incorporate them into their designs.

Bill has a BA in Environmental Sciences from UNC – Chapel Hill and a BS in Mechanical Engineering from North Carolina State University. He has worked for the NC Department of Natural Resources and Carolina Power & Light as a Senior Energy Services Engineer. Currently, he is the owner of AIR by Design, Inc., an energy services company specializing in residential construction in Wilmington, North Carolina.

His services include HVAC Design and Project Management, Energy Star (HERS) and NC Healthy Built Homes certification, LEED – residential verification, energy auditing, moisture-mold diagnostics, utility allowances and speaking engagements.

Bill has been an associate member of the American Institute of Building Design since 1997, and is also a member of ASHRAE and RESNET.
